

Accounting, Organizations and Society

New Editorships in Accounting Journals Panel EAA: Istanbul

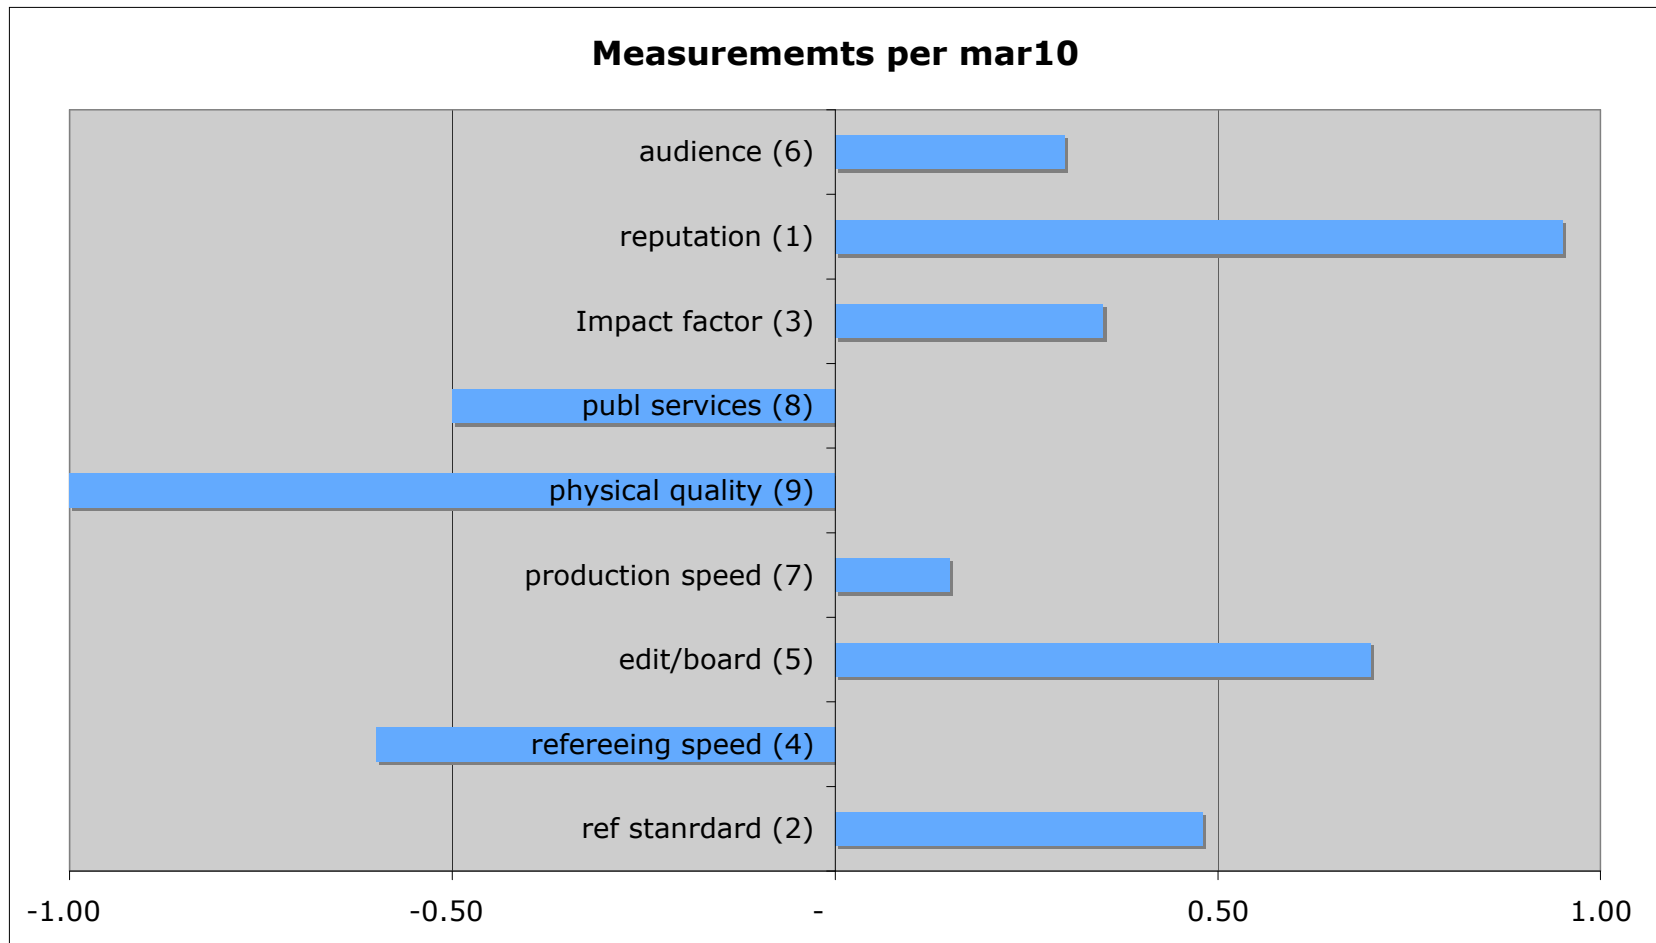

Prof. Chris Chapman
20th May 2010

Anthony G. Hopwood 1944-2010

Continuity and Change

Source: Elsevier Operations Reporting - Survey of recent authors

New online system - ees.elsevier.com/aos

Went live on 4th September 2009

- <http://epsupport.elsevier.com/display/4n/search.aspx?tab=search>
- 24/5 phone support available
- Journal manager on jaos@elsevier.com

For those currently revising a paper that began under the old system, please use the new system to resubmit

- The system will not know this is a resubmission but I will
- Apologies for the new manuscript number
- Upload reviewer response as “supplementary material”

The system compiles the files you upload into PDF format

- Please be careful between to two main classes of information
 - » Things only for editors to see (e.g. your name) and things that reviewers should see (e.g. your response to them)
- Please keep these classes of things in separate files

Updated guide for authors

- NB Research Instruments
 - » A full (but anonymised) copy is required as supplementary material
 - » Not for publication

Continuity and change
